LOCAL AND GENERAL

If you have a business opportunity
to offer, persist reasonably, in Bul-
letin want advertising it—and it
will appeal to the right person.

Al Thurlow for a lunch or dinner.
The stock market was reported
strong this morning.

If you are looking for any of your
friends go to the "Two Jacks" and
you'll find them.

This is the last evening and tomor-
row the last day of the Kilohana Art
League Exhibition.

Ride in the swell Studebaker driven
by the expert chauffeur, M. T. Lutz.
Phone 191. Royal Hawaiian Garage.

Acting Attorney General Whitney
spoke at the High School this morn-
ing on "The Mowring of the Juvenile
Courts."

Cost your iron roofs with "Arabic."
You will be surprised at its cooling
and preservative properties California
Feed Co., agents.

J. M. Poeppel, editor of the Kookoo
Home Rule will publish an English
edition on the first of the year. It
will contain short Hawaiian legends.

**Reis & Quinn are now located at
the Young Hotel Auto Stand—Phone
199—Short runs 50c and \$1.00—By
the hour \$5.00—Special rates for
shopping and calling.**

A novel and effective way of giving
Christmas greetings to friends on
other islands or on the departing Siberia
is to send them by wireless. Rates are
low.

Thurlow's Royal Annex for meals.
Our Brownie Cameras, made by the
Eastman Kodak Co., are high-class ar-
ticles, and make very acceptable
Christmas presents. Prices are from
\$1.00 to \$12.00. Honolulu Photo Sup-
ply Co.

Francisco Catro, who is alleged to
have taken \$10 from the room of a
woman in the Winston block, was this
morning committed to the Circuit
Court on a charge of burglary in the
first degree.

The selections at the Art Theatre
on their new installment of the Or-
chestralle for the coming three days
will be Nordica's waltzes, Moonlight
Selections, Good-Night Beloved Good-
Night. These certainly enhance the
attractions of the new program.

Superintendent of Public Works
Marston Campbell has completed the
plans for the monument to be erected
in honor of the dead all of Hawaii.
The monument is designed on the Cor-
inthian plan, although all suggestion
of the ornate will be left from the de-
sign.

Three separate fire alarms startled
the town this morning. There were
no fires, however, the call being sent
in merely to test new boxes. The sug-
gestion was quite generally made that,
in order to save the community trouble
and excitement, the department here-
after notify the papers beforehand of
such tests.

DEMOCRATS DENY

(Continued from Page 1)
ish, besides being untrue, in view of
the fact that under the law the peti-
tioners were not able to withdraw
their names from the petition, even
should they decide to do so, as it
had become a matter in which the
public was interested from the mo-
ment in which it was filed. He had,
he stated, in a casual way asked Na-
none why he had signed the petition
since the Democrats had treated him
well, not even placing an opponent
against him, and Nanone answered that
his lawyer, George A. Davis, had made
him do it. Then Watson left, and
Nanone told Watson's office clerk that
he had not even studied the contents
of the document before he signed it,
whereupon the clerk told him that it
was a dangerous thing to sign docu-
ments in that way, as one risked being
charged under the perjury statute in
such case.

DOES McLELLAN FACE

(Continued from Page 1)
the commercial bodies only in com-
mercial matters.

Many wondered as to whether the
Merchants' Association would hold an-
other meeting to discuss its position
in regard to the coastwise law, but this
is extremely unlikely, the decision of
the last meeting of that body being
regarded as final.

"I think that the meeting of the
Chamber yesterday afternoon was one
of the most satisfactory ever held in
its history," said J. P. Cooke this morn-
ing. "It is extremely gratifying to know
that the question has been fully and
fairly discussed. The speeches made,
both those for and against the suspen-
sion of the law, were, in my opinion,
as good as could be heard in any such
meeting in the large cities of the main-
land, and, especially considering the
fact that they were impromptu, they
reflect the greatest credit to the
Chamber."

The Weekly Edition of the Evening
Bulletin gives a complete summary of
the news of the day.

THE BEST "FITTERS" IN TOWN.

CARNEGIE TO APPEAR

WASHINGTON, D. C., Dec. 9.—Andrew Carnegie has been sub-
poenaed to testify before the Ways and Means Committee of the House on
the subject of tariff revision.

Federal Corporation Control

WASHINGTON, D. C., Dec. 9.—Senator Dolliver has introduced a bill
designed to subject future issues of stocks and bonds by railroad, tele-
graph, and express companies to the special scrutiny of the Federal
Government.

RUEF JURY LONG DELIBERATING

SAN FRANCISCO, Calif., Dec. 9.—The Ruef case was given to the
jury at 3:36 o'clock. At 9:30 the jury returned to court and asked that
the testimony of Pury, Wilson, and Gallagher be read to it. The jury
also wanted an explanation by the Court of what constitutes the offer of a
bribe and the receipt of a bribe. The jury then retired again to delib-
erate and ballot. At 12:25 tonight the jury was still out and the court-
room was packed. Police were there in force.
At 1 o'clock the jury was locked up for the night.

EMPEROR'S EFFECTS BURNED

PEKING, China, Dec. 9.—The personal effects of the late Emperor
Kwang Hsu have been incinerated. The post-mortem expenditures in con-
nection with his lying in state and the transportation of his body to the
western tombs amount to \$4,200,000.

NOTED SCIENTIST DEAD

SAN FRANCISCO, Calif., Dec. 9.—Professor Rodgers, Assistant Su-
perintendent of the Geodetic Survey, is dead. He was eighty years of age.

WATER VAPOR ON MARS

FLAGSTAFF, Ariz., Dec. 9.—Professor Lowell of the observatory
here announces the discovery of water vapor on the planet Mars.

SPERRY'S FLEET APPROACHES COLOMBO

COLOMBO, Ceylon, Dec. 9.—The American auxiliary Culgoa has ar-
rived here in advance of Admiral Sperry's Fleet.

SCORE KILLED BY BOMB

NEW YORK, N. Y., Dec. 9.—A score of people were injured by a bomb
explosion in a tenement house today.

NO WIRELESS PLANT

(Continued from Page 1)
pole as a support. Though he listened
patiently all one afternoon and a
greater part of the night, there was
not the least tapping in the receiver
to show that the sound waves were
passing from Kahuku to Hilo.
The next tests of the expert were
made from a bark, forty miles out at
sea. An aerial was affixed to the main-
mast of the bark and for hours the
craft hung about, hoping that the
sound waves, which were evidently cut
off by the mountains of Maui and Ha-
waii, might drift around seaward and
come into contact with the waiting
aerials.

Not once was there the least click
to encourage the waiting men, and
finally the task was given up as hope-
less. It is believed that, were tests
made from a point so far out at sea
that the mountains of Hawaii did not
stand in the way, something might be
accomplished. Such tests would be
useless, however, as it would be im-
possible to establish a practicable
wireless station in such a location.

Isabel has returned to this city, and
the thought of establishing a wireless
station in or near Hilo will probably
be dropped for the time being at least.

SUBTERRANEAN LAKE

(Continued from Page 1)
first time that it has been located so
near the beach, however.

Whether the water which has been
discovered beneath the coral rock on
Waikiki beach has any connection
with the sea or not, civil engineers
are unwilling to hazard a guess. The
belief seems to be that the drills have
probably struck a lake which has an
opening into the ocean somewhere
along the line of reefs which sur-
round the outer confines of the is-
land and waters.

The Engineer Corps men have as
yet made no soundings themselves,
their equipment not having arrived
from the mainland. When it does ar-
rive, they will probably make a sys-
tematic series of borings and will
pump up the water with the view to
ascertaining whether it is brackish
fresh water, or genuine ocean salt
water.

Considerable worry is being caused
with regard to the Diamond Head
fortifications, by the discovery of the
water so near the surface on the
beach. The mortar which it is plan-
ned to install in the fortifications are
heavy and will require firm founda-
tions.

INDITED DUO PLEAD GUILTY

Kalauoa Is Given Two Years' Sentence For Burglary

John Kalauoa, indicted by the
Grand Jury yesterday afternoon for
burglary in the first degree, this morn-
ing entered a plea of guilty before
Judge Robinson and was sentenced to
spend two years pounding rock at
Onahu prison. That is, it is supposed
that he will pound rock, for his sen-
tence said "hard labor" for him.

Okano Matsugo, also indicted by
the Grand Jury yesterday, entered a
plea of guilty to a charge of assault
with a deadly weapon, and Judge Ro-
binson let him off with six months.
It appeared that the man had cut up a
friend when he was totally under the
influence of liquor, and as he has al-
ways borne an excellent reputation
during the 15 years he has been in the
Territory, he was let off with the
small sentence.

The motion for a new trial by the
defendant in the suit of Scott vs. Pe-
dro was this morning granted. The
trial case to come before Robinson to-
morrow will be the retrial of Ramon Ro-
drigues.

THE MATSON NAVIGATION Co.
will move at least 100,000 tons of sug-
ar to the Coast this season for the
San Francisco refinery. This sugar
is sent from Honolulu, Kahului, and
Hilo, and is sent out in steamers and
sailing ships. This big lot of sugar
includes the 35,000 tons of A. & B.
sugars which the Matson company se-
cured in addition to its other con-
tracts.

TRY TO START NEW SAN PEDRO LINE

Experimental Boat Will Soon Be Sent To Hawaii

Secretary Wood's weekly report
which will be submitted to the Promo-
tion Committee this afternoon, con-
tains several items of great interest.
In full the report reads as follows:

By the steamship Alameda we sent
out some twenty thousand pieces of
advertising matter, being an addition-
al supply for our Los Angeles office
and a large consignment of the two
pamphlets issued by the Hawaii Com-
mittee of "The American Association
for the Advancement of Science,"
which we are forwarding to Dr. How-
ard at the request of the local com-
mittee. In this shipment, we also in-
cluded several thousand copies of our
different folders which will be distrib-
uted by Mr. W. A. Bryan, who will
open up a Hawaii Promotion Bureau
during the coming session of the
American Association at Baltimore,
doing his utmost to secure the holding
of the 1910 convention of the Associa-
tion in Honolulu.

By the steamship Makura we re-
ceived upwards of fifty letters from
New Zealand, the different states of
Australia and Ceylon.

The director of the Intelligence De-
partment for New South Wales writes,
acknowledging receipt of our last ship-
ment of folders, which he begs to as-
sure us will be carefully distributed in
return for the good work we are doing
for his Bureau in Hawaii.

The American Consul at Brisbane
writes, saying that he has given our
map a prominent position in his office
and asks for more copies for distribu-
tion in Brisbane.

The agent for Thos. Cook and Son,
at Adelaide, reports increasing inter-
est in Hawaii.

W. H. Simpson, advertising manager
for the Santa Fe Railway Company,
writes under date of November 27th,
that the new edition of their wall
map, in which Hawaii is given so much
space, is now under way and that
copies will soon be sent us.

I am at last able to report satisfac-
tory progress in the matter of folder
distribution at Colombo, Ceylon. The
managers of the Gallo Face and Grand
Oriental hotels, whose cards we carry
in our racks, offer to attend to the
matter for us at a cost not to exceed
four (\$4) dollars per month. On an
average, one passenger steamer per
day stops at Colombo on the way to
China, Japan or Australia. I am now
preparing a small, inexpensive folder,
to be published in English, French and
German, which will contain a map
showing Honolulu at the Cross Roads
of the Pacific, changed somewhat to
include Colombo, so that every travel-
er touching at that port will have his
attention called to Hawaii's position
and will also be informed as to hotel
accommodations, stop-over privileges,
etc.

A short letter from Jack London,
from the Solomon Islands, closes with
"The best of luck for Hawaii and
things Hawaiian."

Frank C. Clark writes under date of
November 20th that his Westward
Around the World Cruise, February
5th, 1910, is full up with a rapidly
growing waiting list. Mr. Clark says
further, "We expect to repeat these
cruises for the following year and will
send a full supply of programs and
booklets next June for same and will
be glad to have the co-operation of
your committee." We have written
Mr. Clark, urging him to keep his
steamer in port, say, five days, in or-
der to give those who may wish to do
so, a chance to visit the Volcano and
have assured him that, even if his pas-
sengers do not go to the Volcano, five
days will be only too short a time for
them in Hawaii. We could readily ar-

ARRIVED

Wednesday, December 9,
Am. bk. St. Katherine, Saunders,
from San Francisco, 2:30 p. m.
Thursday, December 10,
Stmr. Claudine, Bennett, from Ha-
waii, a. m.

son, A. Cross, M. McCann, R. Yasu-
mori.

Per stmr. Kinan, Gregory, for Kaula,
5 p. m.—W. M. Grant, J. W. Pratt,
Marston Campbell, Mrs. J. D. Silva,
Mrs. Renowitz and child, Dr. A. J.
Derby, C. W. Spitz, C. E. King and
wife, W. H. Rice and wife, Mrs. F.
Gay.

WATERFRONT NOTES

ADVISES HAVE been received by
the Merchants Exchange of the sailing
of the Nippon Maru from Yokohama
for Honolulu. The Nippon takes the
run of the America Maru, owing to
the latter boat being taken off for an
overhaul.

The steamer Claudine returned from
Hilo this morning, arriving shortly af-
ter 4 o'clock. Her freight consisted
of 20 cords wood, 77 cases charcoal,
22 cases corn, 15 hogs, 2 horses, 43
packages empty bottles, 115 packages
candies.

THE TRANSPORT BUFORD is ex-
pected here Monday morning from
San Francisco en route to Manila. She
carries only casuals as passengers. A
large amount of freight will be landed
here, much of it for the Fifth Caval-
ry.

THE ST. KATHERINE, American
bark, arrived yesterday afternoon
from San Francisco with a general
cargo.

The Kamehameha girls sprung a
surprise Monday afternoon at the
Punahou field when they won a game
of basketball from the Punahou girls.
The score at the end of the second
half stood 13-10 in favor of the Ka-
mehameha girls. Each team won a
game and the next game will decide
the championship.

There are more tobacco, silk, hides
and jewels being imported by New
York City than there were one year
ago.

The average value of land on Ma-
nhattan Island, according to the as-
sessment, is \$272,173 an acre.
